

The ABC\_members database was built in 2015, by Susan Mouw, for the input/edit/and tracking of all the various components of club data, including member profile and meet info. The meets records go back to 2012, when the ABC first began the member points system. The following is an overview of this database.

When the database was first built, it had very little in the way of user interface; the forms and data records were just accessed through the built-in Access interface. With the transition to the new Secretary/Treasurer, a more user-friendly user interface was built and incorporated. This first image is a schema of that interface. Note: this is not a schema of the database itself, just the user interface.

**Ameraucana Breeders Club Database  
User Interface Schematic**

When you first open the ABC\_members database, the new Main Navigation window comes up automatically. You can still see and use all of the many Access development tools, but you don't have to go digging through all that to use the database. (Note: specific member data is grayed out, to protect their confidentiality.)

I. This is the Main Navigation form. It has five different tabs: the Members form (which is the default view), the Meet Req tab, the Meet Report tab, the Queries tab, and the Reports tab. Click on any tab to see the related form. We'll go through each of these, in tab order.

The screenshot shows the 'ABC Members and Records' form in Microsoft Access. The window title is 'abc\_nav'. The form has five tabs: 'Members', 'Meet Req.', 'Meet Rept.', 'Queries', and 'Reports'. The 'Members' tab is active, showing a 'Member Info' section with fields for Member Status and Date (Active, 12/14/2018), Membership Type and Term (Individual, Annual), and a checked box for 'Electronic Bulletin? Leave blank for printed.'. Below this is a 'Notes' field. The 'Member Profile' section includes fields for First Name, MI, Last Name, Farm Name, Street Address, City, State, Zip Code, and Country\* (USA). The 'Member Contact' section includes fields for Phone Number, Email, Website, and Exhibitor Name. At the bottom, there are tabs for 'Breeder's Directory', 'Awards', and 'Points', and a status bar showing 'Record: 14 of 1086' and a search box.

A. Members Tab

This form is for entering/editing/viewing data related to our members - both current and historical. You can find any member's data here, just by clicking on the last name field and hitting Alt/E/F and typing the member's last name, then scrolling through the ones displayed (for multiple members with the same last name) until you get to the one you want. You can enter a new member application here, review member expiration dates here, enter award (eg. Master Exhibitor status) info here, and view all the points this member has earned over the years.

The screenshot shows a web-based form for managing member information. At the top, there are navigation tabs: 'Members', 'Meet Req.', 'Meet Rept.', 'Queries', and 'Reports'. The main form area is titled 'Member Info' and includes the following sections:

- Member Status and Date:** Includes dropdowns for 'Active' status and 'Individual' membership type, along with fields for 'Joined on and Expires On' and 'Family Names/Ages'.
- Member Profile:** Contains fields for 'First Name', 'MI', 'Last Name', 'Farm Name', 'Street Address', 'City', 'State', 'Zip Code', and 'Country\*'.
- Member Contact:** Includes fields for 'Phone Number', 'Email', 'Website', and 'Exhibitor Name'.
- Breeder's Directory:** A section with a 'Breeder's Directory Listing?' checkbox and a table for selecting varieties to be included in the directory listing. The table has columns for 'Include in Directory Listing', 'Show these Varieties:', and 'Delivery Options:'. The 'Show these Varieties:' column is further divided into 'Large Fowl' and 'Bantam'.

At the bottom of the form, there is a status bar showing 'Record: 14', '45 of 1066', and a search field.

There are 3 tabs on this form: the Breeder's Directory info as shown above, plus the Awards tab and the Points Tab:

1. Awards Tab:

2. Points Tab: (Note: this is not a data entry form. The information displayed here is entered via the Meets form, as detailed in the Meets chapter. Only part of the whole listing is displayed below).

B. Meet Req. (meet request) tab. This is a simple data entry form for entering the info for approved Meet Requests. Note: This is also the form where the automated Meet Request process will be initiated. It is not shown here, because it is not yet complete.

D. Queries Tab:

The next tab, the Queries Tab, is for viewing the data entered in any of the first three tabs, in various formats and combinations. This is where having the database really works: all the data is there and can be accessed easily:

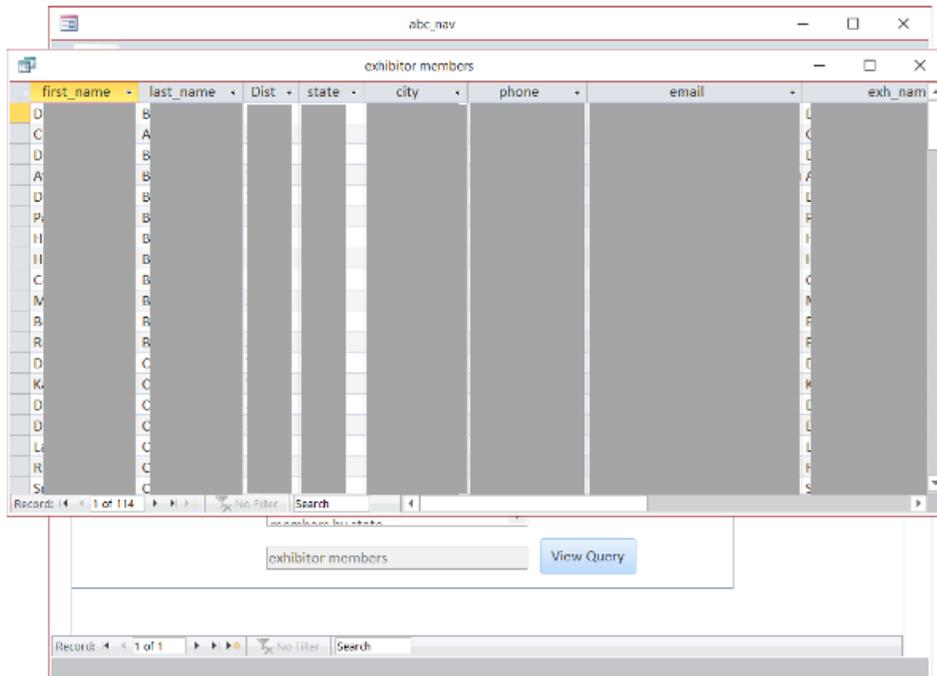

The Queries tab has 4 sub-tabs: Member Queries, Points Queries, Meets Queries, and Awards Queries. Examples of each are included.

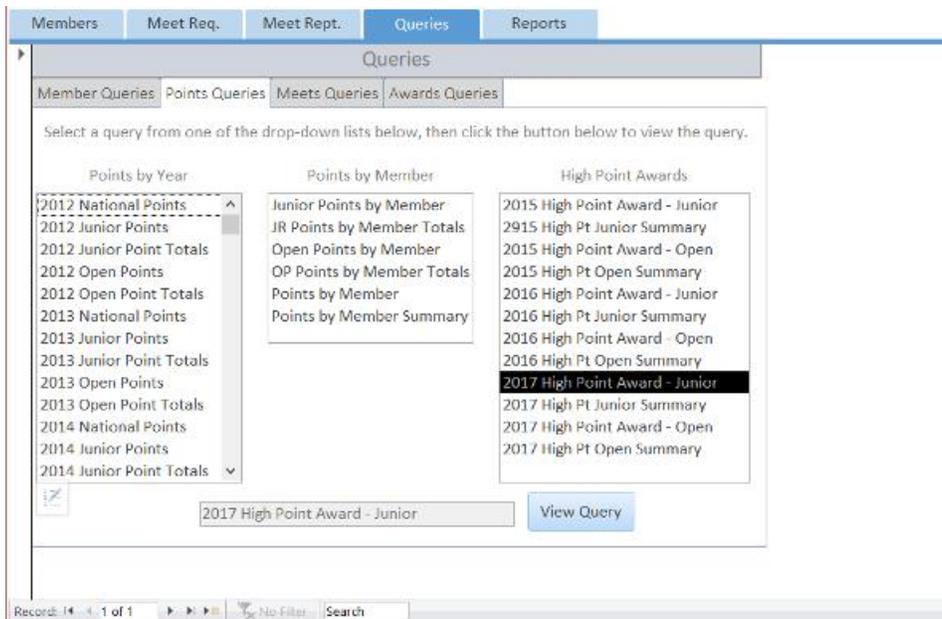

1. Members Queries (default view)

a) Example of a members query (confidential member info grayed out):

2. Points Queries. The Points Queries tab has 3 sub-tabs: Points by Year, Points by Member, and High Point Awards.

a) Example of a Points Query:
